

★ GROUP VOICE CLASSES ★

For The Curious!

★ LEARN THE BASICS - SHARE THE FUN! ★

Are you looking for the **first** place to start when it comes to singing? Are you intrigued by many styles of music? Are you a social human? Do you love to learn?

This is **not** a choir! The goal of this program is to offer a beginning understanding of:

- Foundational singing skills (storytelling, mind-body awareness, and confidence)
- Musical concepts (rhythm, pitch, volume, articulation and tempo)

Students are grouped by age, and classes are kept at a maximum of 6 participants (minimum of 3 to run the class).

THIS PROGRAM WAS DESIGNED FOR STUDENTS WHO:

- Are curious about singing
- Aren't currently interested in the pressures of performance
- Aren't under any pressure to be excellent at singing
- Like to learn in a group environment

THIS PROGRAM INCLUDES

- 22 classes (50 mins each)
- A class binder and weekly handouts that include voice exercises, lesson summaries, and sheet music
- A class Google Drive folder for resources such as vocal guides and accompaniment tracks to help with at-home practice
- Some time for each exploratory singer to ask questions and explore topics that are interesting to them
- A final showcase in April for singers who wish to show off what they've learned with group songs and solos
- Flexible payment options
- The opportunity to work with an award-winning singing instructor - beginners deserve excellent teachers!

WHY IT'S GOOD VIBES

At Good Vibrations, we want to ensure that good vibes are always flowing. This class empowers students with a way to learn about singing without the stress of performance or competition. You will be introduced to a new instrument in a small group of other like-minded and brave individuals who are curious to explore the magic of music, and the power of their voice!

At the end of the day - singing is fun! We ensure that:

- Songs are accessible, simple to sing, and interesting to explore;
- The focus is on creating an environment of encouragement and support, not comparison and competition;
- You'll leave every class feeling inspired and excited to practice what you've learned;
- At the end of the session, you'll know if you want to keep exploring singing, and what kind of music/organization would be best suited for your next steps, and/or you'll leave with a deeper understanding and respect for singing and singers.

LESSON INFORMATION

These group lessons can be offered in-studio or on Zoom. The studio is located in the Morpheus Theatre Rehearsal Centre - part of the Parkdale Community Centre in Calgary. Each lesson is 50 minutes long (minimum of 3 students per class).
